

## Customer Journey Map

### 8.PROJECT DEMONSTRATION

|               |                                       |
|---------------|---------------------------------------|
| Date          | 4 July 2026                           |
| Team ID       | XXXXXX                                |
| Project Name  | A Comprehensive Measure of Well Being |
| Maximum Marks | 1 Mark                                |

### Project Demo Planning (3-Minute Screen Recording Script)

This document provides the timeline and script for recording the 3-minute video demonstration of the HDI Predictor.

#### 3-Minute Demo Timeline

| TIMELINE    | STAGE DESCRIPTION | SCRIPT & VOICEOVER GUIDE                                                                                                                                                       | VISUAL FOCUS                                                                      |
|-------------|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
| 0:00 – 0:15 | Application Open  | "Welcome to the Human Development Index Prediction System. We start at the login screen. Our credentials are pre-filled for this demo. Logging in brings us to our dashboard." | Login transition to Home Page. Show header summary cards and the main input form. |

| TIMELINE               | STAGE<br>DESCRIPTION                        | SCRIPT & VOICEOVER<br>GUIDE                                                                                                                                                                                                               | VISUAL FOCUS                                                                                                                |
|------------------------|---------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| <b>0:15 –<br/>1:00</b> | <b>Scenario 1:<br/>Very High<br/>HDI</b>    | "Let's run our first scenario for a highly developed country. We select Germany from the dropdown, pre-filling its actual indicators. Let's adjust Life Expectancy to 84 years, and click Predict."                                       | Select Germany, slide inputs, click Predict. Show prediction score 0.96 and Very High tier in the results card.             |
| <b>1:00 –<br/>1:45</b> | <b>Scenario 2:<br/>Medium HDI</b>           | "For our second simulation, we return to the dashboard. Let's clear the values and input a medium tier: Life Expectancy of 70, expected schooling of 12, mean schooling of 8, and GNI of \$12,000. Prediction outputs a Medium HDI tier." | Click Reset. Enter values, click Predict. Show result card with yellow progress bar and custom educational recommendations. |
| <b>1:45 –<br/>2:30</b> | <b>Scenario 3:<br/>Low HDI</b>              | "Our third scenario models a developing nation: Life Expectancy of 58, expected schooling of 7, mean schooling of 4, and GNI of \$2,500. Predict outputs a Low HDI classification."                                                       | Reset, enter low indicators, predict. Show result card with red banner and health recommendations.                          |
| <b>2:30 –<br/>2:55</b> | <b>Compare<br/>Results &amp;<br/>Export</b> | "Returning to our dashboard, we scroll down to find our Prediction History table, logging all three queries locally. We can clean items or export this log as a CSV spreadsheet."                                                         | Return to dashboard, scroll to History table. Click Export to download<br>HDI_Prediction_History.csv.                       |

| TIMELINE       | STAGE<br>DESCRIPTION | SCRIPT & VOICEOVER<br>GUIDE                                                                                                                                          | VISUAL FOCUS                                                |
|----------------|----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------|
| 2:55 –<br>3:00 | Closing &<br>Summary | "This application is fully responsive, supports high-fidelity light/dark modes, and runs on an explainable Linear Regression engine with 99.4% accuracy. Thank you." | Toggle Dark/Light mode once.<br>Show footer. End recording. |
