

Customer Journey Map

8.PROJECT DEMONSTRATION

Date	4 July 2026
Team ID	XXXXXX
Project Name	A Comprehensive Measure of Well Being
Maximum Marks	1 Mark

Team Involvement in Demonstration

This document maps role responsibilities and tasks during the project demonstration and final review phase.

Roles & Demonstration Assignments

S.NO	TEAM ROLE	ASSIGNED MEMBER	DEMO RESPONSIBILITY
1	Project Presenter	Lead Developer	Introduces the problem statement, explains the importance of HDI simulations, and drives the walkthrough of the login and dashboard features.
2	Technical Explainer	ML Engineer	Details the training pipeline (train_model.py), explaining data preprocessing (melting), standard scaling, and the regression coefficients on the /about route.

S.NO	TEAM ROLE	ASSIGNED MEMBER	DEMO RESPONSIBILITY
3	Scenarios Driver	UI Engineer	Executes the three scenarios (Very High, Medium, and Low HDI predictions), demonstrating range slider synchronizations and pre-fill capabilities.
4	QA Evaluator	QA Tester	Verifies history cache saving, triggers the CSV downloads, and answers questions regarding validation boundary checks.

Demo Day Guidelines

- Environment Verification:** Before demonstrating, run the automated test suite `python -m unittest discover -s tests` to verify all components compile correctly.
- Server Check:** Launch the Flask server in clean port context: `python app.py`. Ensure database stats caches load successfully on startup.
- Data Logs:** Keep prediction histories clear before the presentation, allowing stakeholders to see logs populate from scratch.
